EDUCATION

Thakur Institute of Management Studies, Career Development & Research (Mumbai University)

Mumbai, India

Master of Computer Applications (MCA), Specialization in Computer Science, CGPA: 7.48/10

November 2022 - May 2024

- Relevant Coursework: Distributed Computing, Big Data (**Hive, Apache Spark**, etc.), Machine Learning, Artificial Intelligence
- Organizations: Placement Cell Member, Department of Lifelong Learning & Extension Member

Tilak Maharashtra University, Pune (TMV Pune)

Mumbai, India

Bachelor of Computer Applications (BCA), Specialization in Computer Science, CGPA: 7.1/10

August 2018 - July 2021

- Relevant Coursework: **Data Structures**, Statistics, Web Development, Computer Networking, DBMS, Cloud Computing

WORK EXPERIENCE

ISchoolConnect Technologies

Mumbai, India

Software Engineer Intern

February 2024 – August 2024

- Revamped a Google Chat notifier, utilized webhooks to send error reports in Excel format to a Chat space, reducing error detection and resolution time by 50%.
- Engineered and implemented automated data validation and migration scripts, created scripts for processing CSV and JSON files to **PostgreSQL** and **MongoDB** databases, ensuring 98% accuracy and integrity of critical business data metrics.
- Collaborated on client onboarding, worked with the team to create landing pages and dashboards, improving client onboarding speed by 40% and enhancing user experience.
- Analyzed and optimized data retrieval processes, reducing load times by 20% through effective database indexing and **query optimization** strategies.
- Managed and processed datasets containing over 10,000 rows, ensuring data accuracy and consistency across the system.

SKILLS SUMMARY

Languages: Python, C++, SQL, JavaScript, Java

Web Technologies: Node.js, React, Django

Databases: PostgreSQL, MySQL, MongoDB, AWS Redshift

Tools & Technologies: Linux, Git, Docker, Kubernetes, Microsoft Azure, Apache Spark, Advanced Excel, R, Tableau

PROJECTS

Scrap Mart (Python, Django, PostgreSQL) [Link](#)

Developed a comprehensive search listing platform using **Django** and **PostgreSQL**, enabling users to find local scrap dealers. Integrated advanced search filters and sorting options, leading to a 40% increase in user satisfaction based on testing feedback.

Ensured cross-device compatibility by implementing responsive design techniques, optimizing the application for desktops, tablets, and mobile devices. Streamlined database operations with **PostgreSQL**, improving query performance by 25% compared to initial prototypes.

Discussion Forum (MongoDB, Express, ReactJS, NodeJS) [Link](#)

Designed a discussion forum using the **MERN** stack enabling real-time communication and topic-based discussions. Integrated JWT-based authentication to ensure secure user access, reducing unauthorized access attempts by 60%.

Enhanced user interaction with features such as upvoting, commenting, and thread following, increasing engagement by 35%.

Peer-to-Peer Lending Platform (Java, Spring Boot, MySQL, REST APIs) [Link](#)

Developed a Peer-to-Peer Lending Platform that facilitates secure lending and borrowing between users. Implemented user authentication and role-based access control using JWT. Designed and built **RESTful APIs** with **Spring Boot** to manage user registration, loan listings, bidding, and payment processing.

Integrated **MySQL** for data persistence and secure payment gateways. The project demonstrates a comprehensive understanding of financial technologies and secure software design.

CERTIFICATIONS & ACHIEVEMENTS

- Certificate in **Ethical Hacking** from NPTEL, coordinated by IIT Kharagpur [Link](#)
- AWS Certified Solutions Architect – Associate (Expected)
- Certificate of course completion in **Python Data Structures** by the University of Michigan, offered by Coursera [Link](#)
- Completed over 150 challenges on HackerRank and LeetCode, showcasing strong **analytical** and **coding** skills [Link](#)
- Mastered **SQL** proficiency by successfully tackling 100+ hands-on queries on HackerRank and LeetCode, mastering advanced database management techniques, and improving data retrieval efficiency [Link](#)

ACTIVITIES & HOBBIES

- Stood in 1st place in activities held at college fest, including football, entrepreneurship quizzes, and general knowledge quizzes.
- Vice-Captain of the Football Team throughout both school and college tenures.
- Played an active role in volunteering initiatives within the Jain community, contributing to its development.
- Languages known – English, Hindi, Marwari, German.
